EXHIBITION

We are all glad that our Band was successful in the recent Competition. Cprl. Scott took first prize with one of his paintings (as we expected he would) and Pte. Leslie Grigg the first prize for stenoid work.

We heartily congratulate the winners. Well done!

GYMNASIUM

Our Gym should be the best we have had for years. Most of the boys have joined, so you one or two Seniors (what about it,?) To those who are building muscle and strength on Friday nights, just a few words. Stick to the Gym, try to do the exercises as set, slow position, and get the best out of it. "Gymnasts are born, not made" but even the worst can improve wonder fully. Don't play the fool, but enjoy your Gym to the utmost, thus encouraging those who give their time to teach you "Leg Cuts - Circle the Bar". Finally we would like to set our eyes once more on the Founder's Cup. "War then, 'ow about it",

(sd) R.F. SLEATH.

We are pleased to learn that the Company has secured a pitch in North Enfield Rec, for football, in addition to the one in Kalfax Rd.

Capt. Chopping reports that the 3rd had an excellent turn-out on Sunday last, despite the fact that only 2 Officers paraded. Although it was damp and cold the Band played well and the marching was good.

HISTORY OF THE 3rd (Cont'd)

Now let us try to see some of the difficulties which had to be overcome, and at the same time note how the 3rd began gradually to move upwards. Boys were continually leaving for all sorts of reasons, the chief being that as soon as the Parents realised the boys were doing Military Drill, they thought it was only a means of getting Recruits for the Army. Others left as soon as the novelty had worn off, whilst others vanished immediately they were made aware that they could not lark about as they wished, or smash things up generally. I have seen Boys thrown out of the Lecture Hall "neck and crop" for breaking things, and I have also seen boys lock in the doorway, and fling their uniform into the Hall at the Captain while we were drilling. I even remember a Corporal doing this, and large stones whizzed through the doorway and windows.

(To be continued)
